SCHOOL OF TECHNOLOGY

The New Schools at Carver

School of Technology

VISION

A 21st Century Education
Supported By Academic Excellence and Caring.

MISSION

Our mission is to ensure that all of our students are prepared for success in life and in college. Students will experience a technology-rich instructional program that imparts the values of literacy and numeracy. Our school promotes diversity and prepares students to be globally competitive. We will ensure that our students become committed life-long learners. Pride, integrity, and leadership are the principles that guide the School of Technology.
